RE: *Introduction of Contract for Resolution 507-1993, Third Street - Franklin Avenue
Combination Sewer Reconstruction*

A-93-10-14

This project was initiated because three emergency repairs were required within a two year period, the repairs reduced the capacity of the sewer, and the condition of the existing pipe indicated that other repairs could be required at any time. The improvements will replace those sections of pipe where the emergency repairs occurred and oversize two of the sections to be replaced so that they will not have to be replaced again as part of a relief sewer project called for in an earlier master plan.

The work covered by this contract is:

Mainline

Beginning at a proposed combination sewer manhole 182± LF North of the centerline intersection of Sinclair Street and Franklin Avenue; thence North 352± LF to a proposed manhole; thence East 165± LF to a proposed manhole.

Said sewers shall be 48", 24" and 12" in diameter.

The advertised Notice to Contractors ran on August 13 and 20, 1993 and bids were received September 1, 1993.

The Contract for Resolution No. 507-1993, Third & Franklin Avenue Combination Sewer Reconstruction, was awarded to T-G Incorporated in the amount of \$286,950.50. This was 9% below the engineers estimate (\$315,156.08). They were the lowest of two bidders.

The cost of said improvements shall be paid with Water Pollution Control Utility revenues.

TITLE OF ORDINANCE: Sewer Contract 507-1993, 3rd & Franklin Avenue
